Response to the Circuit City Bankruptcy objecting to moving my claim to a lower status. Claim includes the payment of \$40,000 in compensation owed by Circuit City to Brandon Rowberry for work performed in 2008. You already have a copy of the documents (along with a number of other claimants for the same amount).

This was compensation owed to me based on my full-time employment with the company for 2008, and not any kind of a performance bonus or "at risk" compensation. I fulfilled the obligations outlined in the document and expect that agreement to be honored in the top group of claims and not pushed lower on the list. There are many that can provide personal testimony to the claim and my employment at the company for that time period. I can provide names if needed further.

I would ask your thoughtful consideration on the unpaid compensation for me, my family and others in the same situation. We stayed with Circuit City based on this compensation, and not having received it has been a hardship since we had included it as part of our family budget for 2009. We expect it to be considered as a high-order claim and look forward to a fair settlement.

Please reach out to me if I can add more clarity or be of any help.

Best,
Brandon Rowberry
